Plastics, Rubber and Composites Processing and Applications **17** (1992) 329–331

CONTENTS OF VOLUME 17

Number 1

Guest Editorial
Friction of polymers 1
BRIAN BRISCOE (UK)
The fatigue design of uPVC water pipe with consideration of environmental effects 5
S. J. MADDOX & S. MANTEGHI (UK)
Hydrolysis of acrylonitrile–butadiene rubber 19
R. FRENKEL (USSR), V. DUCHÁČEK & G. MAKSUTOV (Czechoslovakia)
A new process control system for rotational moulding 23
R. J. CRAWFORD & P. J. NUGENT (UK)
Impact strength of rotationally moulded polyethylene articles. 33
R. J. CRAWFORD & P. J. NUGENT (UK)
Short carbon fibre filled polychloroprene 43
P. B. JANA & S. K. DE (India)
High pressure permeation and diffusion of gases in polymers of different structures 51
R. P. CAMPION & G. J. MORGAN (UK)
Adhesion between rubber-modified thermoplastics and a glass-reinforced polyester resin 59
B. MIANI, P. BUZZI, T. RONCHETTI, M. RINK & A. PAVAN (Italy)
Forthcoming meetings 67

Number 2

Guest Editorial
The use of Kevlar on aero-engine fan containment casings 69
I. F. STEWART (UK)
The effect of mixing and molding conditions on mechanical properties of polyethylene–nut shell flour composites 75
R. G. RAJ, B. V. KOKTA (Canada) & J. D. NIZIO (USA)
Rubber sheath compounds based on ethylene propylene rubber–chloro-sulphonated polyethylene rubber blends for cables 83
S. BHAUMIK & N. K. DATTA (India)
The spectral and magnetic properties of some bromo transition metal complexes of the aminopyridines and a study of their performance as colouring materials for poly(vinyl chloride) 93
J. R. ALLAN, G. M. BAILLIE, D. L. GERRARD & J. BIRNIE (UK)
Sustained release natural rubber formulations for urea 99
E. M. ABDEL BARY (Egypt), A. G. EL-SHEKEIL (Yemen), F. M. HELALY, A. A. SARHAN & H. H. ABDEL RAZIK (Egypt)
Tensile properties and loading in filled rubbers 109
A. POUCHELON (France) & P. VONDRACEK (Czechoslovakia)
Testing of viscoelastic function interconversion methods for use in engineering design. II. Formulae to interconvert relaxation modulus and creep compliance. 115
A. MACCHETTA & A. PAVAN (Italy)
Book Reviews
Fundamentals of Computer Modeling for Polymer Processing
(Edited by Charles L. Tucker III. Hanser, Munich, Vienna, New York, 1989) reviewed by Peter Cox 125
Total Quality Management
(Edited by J. M. Buist & S. H. Coulson. Plastics and Rubber Institute, London, 1990) reviewed by David R. Gabe 125

Plastics, Rubber and Composites Processing and Applications (**17**) (1992) — © 1992 The Plastics and Rubber Institute, England. Printed in Great Britain.

Rubber Technology Handbook
(Edited by W. Hofmann. Hanser, Munich, 1989) reviewed by P. M. Lewis . 126
Internal Stresses, Dimensional Instabilities and Molecular Orientations in Plastics
(By L. C. E. Struik. Wiley, Chichester, 1990) reviewed by B. E. Read . . 127
Forthcoming meetings 129

Number 3

Papers presented at the Impact Testing of Plastics Conference, held 7 September 1990, Regents College, London

Guest Editorial
Impact testing of plastics — some introductory comments 131
J. G. WILLIAMS (UK)
Impact failure mechanisms of carbon fibre thermoplastic composites . . 133
A. D. CURSON, D. C. LEACH & D. R. MOORE (UK)
The relevance of impact testing in the materials science of polymers . . 141
C. B. BUCKNALL (UK)
Instrumented Charpy impact testing of polyethylene 147
A. J. HEMINGWAY, A. D. CHANNELL & E. Q. CLUTTON (UK)
Falling weight impact testing and design 157
PETER E. REED (UK)

Effect of processing conditions on the properties of poly(ether ether ketone). 165
A. ARZAK, J. I. EGUIAZÁBAL & J. NAZÁBAL (Spain)
Strain-dependent isothermal damping behaviour of filled EPDM rubber: effect of vulcanizing system 171
C. S. S. NAMBOODIRI & D. K. TRIPATHY (India)
Effect of some processing parameters on the resistivity of conductive nitrile rubber composites 179
P. K. PRAMANIK, D. KHASTGIR & T. N. SAHA (India)
Structural characterisation of the chloro, nitrato and sulphato complexes of cobalt, nickel and copper with octadecylamine and a study of their performance as colouring materials for poly(vinyl chloride) 187
J. R. ALLAN, G. H. W. MILBURN, F. RICHMOND, D. L. GERRARD, J. BIRNIE & A. S. WILSON (UK)
Short Communication
The effect of plasticizers on the shrinkage of some rubber vulcanizates . . 193
MOSHE RA'ANAN & ZVI RIGBI (Israel)
Forthcoming meetings 197

Number 4

Guest Editorial
Twin screw extrusion 199
JAMES L. WHITE (USA)
Linear friction welding of polypropylene and polycarbonate — Part I: Effects of welding conditions on strength of welds 203
S. M. MOODY & J. R. ATKINSON (UK)
Linear friction welding of polypropylene and polycarbonate — Part II: The microstructures and mechanical properties of PP welds made using optimum conditions 211
S. M. MOODY & J. R. ATKINSON (UK)
Rubber to filler interaction studies — a dynamic mechanical thermal analysis approach 219
SUSY VARUGHESE & D. K. TRIPATHY (India)

Papers from the Conference 'Deformation, Yield and Fracture of Polymers', held at Churchill College, Cambridge, 8–11 April 1991

Creep and physical ageing in PVC at high stresses 225
G. D. DEAN, B. E. READ, J. L. LESNIAREK-HAMID & P. E. TOMLINS (UK)

A study of fracture transitions in polyether sulphone 237
D. R. MOORE, B. SLATER & J. M. SMITH (UK)

Charpy and dynamic fracture testing for rapid crack propagation in polyethylene pipe 247
P. S. LEEVERS, R. YAYLA & M. A. WHEEL (UK)

Short Communication

The fundamental material parameters that govern slow crack growth in linear polyethylenes 255
N. BROWN, X. LU, Y. HUANG, I. P. HARRISON (USA) & N. ISHIKAWA (Japan)

Book Reviews

Introduction to Nonlinear Optical Effects in Molecules and Polymers (P. N. Prasad & D. J. Williams. Wiley Interscience, 1991) reviewed by N. C. Billingham 259

Degradation of Filled Polymers: High temperature and thermal-oxidative processes (M. T. Bryk. Ellis Horwood, Chichester, 1991) reviewed by W. W. Wright. 259

Liquid Transport Processes in Polymeric Materials (J. M. Vergnaud. Prentice Hall, New Jersey, 1991) reviewed by R. G. C. Arridge 260

Forthcoming meetings 261

Number 5

SPECIAL ISSUE: DYNAMIC MECHANICAL AND DIELECTRIC THERMAL ANALYSIS

Guest Editorial

Dynamic mechanical and dielectric thermal analysis — DMTA and DETA . 265
R. A. PETHRICK (UK)

Dynamic-mechanical properties of PEEK, PEI, PES with reference to their employment in the composite field 269
MARIO PEGORARO & LUCA DI LANDRO (Italy)

Studies on delayed action heat seal adhesives: II dielectric relaxation, diffusion and peel strength measurements on mixtures of dicyclohexylphthalate with poly(methyl methacrylate) and poly(*n*-butyl methacrylate) 275
RICHARD J. ELWELL (The Netherlands), DAVID HAYWARD & RICHARD A. PETHRICK (UK)

Relaxations in thermosets. XX: Dielectric and curing kinetics of elastomer-containing epoxide thermoset composites 287
M. WANG, G. P. JOHARI & JEFFREY P. SZABO (Canada)

Relaxations in thermosets. XXI: The dynamic-mechanical behaviour of elastomer-thermoset composites 307
G. P. JOHARI & JEFFREY P. SZABO (Canada)

Mechanical relaxations in perfluoropolyethers 296
G. AJROLDI, G. MARCHIONNI, M. FUMAGALLI & G. PEZZIN (Italy)

Mechanical relaxation of poly(*p*-phenylene terephthalamide) thin film . . 315
MOTOWO TAKAYANAGI, KEIKO KOGA & SHIGEYUKI UETA (Japan)

Forthcoming meetings 323

Contents of Volume 17 327
